

## CCC Celebrates Summer 2017

The Summer Program continues Concord Children's Center's commitment to provide an experience that is stimulating, engaging and designed to meet the developmental stages of children. Led by our staff of professional early childhood educators, the summer program combines interactive creative curriculum with opportunities for relaxation, play, and social development. There is plenty of time for outdoor play in our natural play environments. Children entering the Children's Center for the first time are able to make new friends and meet many of our teachers prior to the fall start of school. The teacher developed curriculum will emphasize the arts, nature, water play and outdoor exploration and games.
